MEMORANDUM FOR: Chief, General Sciences Division, OSI

25X1A

ATTENTION: [REDACTED]

THROUGH: Chief, Requirements Branch, Reconnaissance
Group, CGS

FROM: Chief, CIA/PID(NPIC)

SUBJECT: Possible Location of the Krasnoyarsk Institute
of Nonferrous Metals, USSR

REFERENCES: Requirement No. C-SI3-80,252
CIA Project No. C 813-63

1. Available photographic coverage of Krasnoyarsk, USSR (56-01N 92-50E) has been examined in an effort to locate the Institute of Nonferrous Metals. Lack of detailed maps with street names precluded the use of the open source address of Vuzovskiy Perevolk 3, Krasnoyarsk 25. The entire city was searched, but the main effort was concentrated in the industrialized portion of the city south of the Yenisey River. Although no positive identification could be made from the photography, the search did reveal an institutional-type facility which may be the Institute of Nonferrous Metals. The facility comprises the northern portion of a possible chemical/metallurgical combine [REDACTED]

25X1C

25X1C

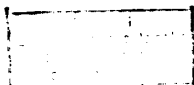

25X1C

It is located approximately 3 nautical miles (nm) east-southeast of the Krasnoyarsk railroad bridge at 55-58N 92-52E.
